“Project Title: Fellowship with AVANTHA FOUNDATION”

Objective: To generate awareness and reduce child malnutrition through community participation.

The issue of under-nutrition is very crucial and now it has become a challenge for both the Civil Society Organizations as well as the Government. The NFHS reports which highlight different indicators of nutritional status of children and mothers, the latest report of the NFHS in the year 2005-06, do not reveal the actual situation. The ugly face of MALNUTRITION came in to lime light more recently, when the HUNGaMA (Hunger and Malnutrition) report published in 2011. While launching the report, the Prime Minister Dr. Monmohan Singh termed Malnutrition as a “national shame”. The HUNGaMA report was jointly prepared by the NANDI and AVANTHA Foundation, so with looking to the importance of the issue the AVANTHA Foundation has decided to work in the ground level with some grass root organizations who are really working in the particular issue.

So on dated 22nd August 2013 one of a fellow from AVANTHA Foundation, Mr. Saswata Sourava Panda joined in The Ayauskam. The overall objectives of the fellowship are to improve the awareness level of the community and mother on malnutrition. Create some front line volunteers in the village level to protect the child from the malnutrition, strengthening the Govt. infrastructure by some value addition in their programmes etc.

With looking all these objectives initially we are selecting five Grampanchyats from the Boden block and done a situational analysis. Those are like

L No	Name of the Block	Name of the Grampanchyat	Name of the Village	No's of beneficiaries covered
1	Boden	Khaira	Amera	1639
2	Boden	Khaira	Khaira	1355

After that presently we are focusing only one Grampanchyat and two villages those are Khaira and Amera. There we are implementing some of programmes like promoting Shisuvikash Chart and

involving in the day to day programme of the ICDS to improve the quality of the local ICDS centers. After that with looking to the impact of our programme we are planning to replicate the same programme at the all AWCs of the Boden block.
